SIGNS OF THE TIMES

Westflex second anniversary at our Maddington premises.

In July this year we celebrated our second year in our swanky pad in downtown Maddington.

After a storm blew half our name plate down, people were wondering who the heck "WESTFLE" were. Our flash new signage showcases the product lines that we carry – Nutech Paint, Designer Concrete Coatings and of course our golden child, Starpoint flexible pointing.

New Team Players

We have welcomed some new members to our Westflex team including Shane Druyan our Warehouse Supervisor and John Papalia to complete our hardworking warehouse team.

INSIDE:

Restoring Metal Sheet Roofing Tips

Christmas Closure

It may seem a little premature to advise of this so early, but best to be organised with the warmer weather approaching!

Last day for Metro Deliveries will be Friday 18th December. The office will be open until close of business (4pm) on Tuesday 22nd December – so pick-ups are available up until this time.

We will reopen from 7am on Monday 11th January 2016. Please be aware that for WA regional deliveries last orders for 2015 should be received by mid December to make sure they are received in time.

For eastern states customers, if you could please have any orders that you would like delivered prior to Christmas in by the 4th December. The earliest we can dispatch orders in January will be Friday 15th January 2016 unless orders are in before the Christmas closure.

Westflex Accessories

Here are some of our more popular accessories for Starpoint flexible pointing and Designer Concrete Coatings spray on paving products – some you may know and some you may not!

Westflex Retardant

Adding up to 100 mils (a third of a Coke can) of Westflex Retardant per 10L bucket in warmer conditions can aid in maintaining a 'wet edge' in application.

Sold in 2L and 5L containers

Bucket Boot

A simple and handy addition that stops the Starpoint bucket sliding off the roof!

Filament tape and hopper gun

We sell 9mm & 12mm filament tape (both 45m in length), that can be used as a stencil replacement or to design your own pattern. It can also be used at control joints that need to remain in place.

We sell the Master Finish Hopper Gun as well as the Graco. Master Finish is a popular choice for volume size and ease of use.

DESIGNER
CONCRETE COATINGS

Graco Hopper Gun – 5.7L

Comes with 4, 6, 8 & 12mm nozzles

Master Finish Air Hopper Gun – 9L

Comes with 4, 6 & 8mm nozzles

WA Metro Deliveries

Perth is an ever expanding capital city, with the 'Metro' area now stretching from the likes of Alkimos to the north and Port Kennedy to the south. We currently offer daily deliveries to these areas and everywhere in between, provided by our very own driver and vehicle, with an external courier doing Mandurah and surrounding areas for us as well.

To ensure we can provide the best possible delivery service, please help up to help you by:

- ★ Advising of order the day before (or more) of delivery
- ★ Provide a clear and accurate delivery address and advise if there any special delivery instructions
- ★ If at all possible try to group any orders together
- ★ We do currently charge a \$20 metro delivery fee for orders that are less than 5 x tubs (10/20L)
- ★ Any orders placed before 8am that request same day delivery, we will do our best to accommodate. With the busy time coming up we would hate you to miss out but we do understand sometimes orders have to be placed last minute.
- ★ We do not offer deliveries to building sites as this can delay efficiencies in delivery and poses risk of theft. We hope that you understand.

Restoring Metal Sheet Colorbond Roofing

Basic Overview

- ★ Pressure clean roof.
- ★ Replace badly rusted sheeting, carefully checking sheet overlaps and joints. Remove scale from surface rust areas using a wire brush.
- ★ Tighten all fixing screws and check flashings.
- ★ Treat surface rust with Nutech's Ecosafe Rust Converter & Inhibitor.
- ★ Ensure surface is dry and apply the Anti-Corrosion Metal Primer shortly after the Rust Converter.
- ★ Allow a minimum of 24 hours before applying subsequent coats of top coat.
- ★ Do not apply Rust Converter, Primer or Top Coats on a surface that's temperature is in excess of 30 degrees Celsius. It will damage the coating and affect gloss, surface and intercoat adhesion and durability.

Notes

- ★ Anti-Corrosion Metal Primer is available in Grey (standard) or White. White is recommended as the primer for NXT Cool Zone top coat.
- ★ To avoid visible drying lines, apply paint from ridge to gutter, never across the roof.

STARPOINT DISTRIBUTOR IN FOCUS

Sydney Roof and Building Supplies

Sydney Roof and Building Supplies is one of Westflex's largest distributors in Sydney. They hold a large selection of Westflex Star Point, ranging from problem colours, to neutrals.

Located in Mt Kuring-Gai, SRBS is a convenient roofing supplies one-stop shop.

After five years and still a young business, SRBS is thriving. In fact they are doing so well, they are moving to a new warehouse. Next door to the old one in fact, but more importantly four times bigger.

SRBS not only provide off-the-shelf roofing and flashing items, but are fast becoming the Sydney "go-to" people for those incidentals like gun repairs, elevator parts, set-out guns and those hard to find roofing clips.

They also provide specialty second hand tiles and new slates imported from Spain and Wales along with all the tools to get the job done.

For a small delivery fee products can be delivered within 48 hours.
